Re: Application for Change under Ground Water Certificate No. 4631-A(C)

Dear Mr. & Mrs. Derby:

In response to your request, you are hereby granted an extension to put the water to full beneficial use for the reason(s) below:

According to your request, the Department of Natural Resources (DNR) has authority, in addition to you, to utilize the authorized point of withdraw. Until DNR finalizes their development, you will not be able to put your project to full beneficial use. It appears you have made substantial goals in completing your project. Your request is for five years but has been reduced to reasonable and short period of time. We will grant you an additional three years to complete your project and put it to full beneficial use.

The new deadline to submit your *Proof of Appropriation of Water* is June 1, 2013.

WAC 173-173 describes the requirements for data accuracy, device installation and operation, and information reporting. It also allows a water user to petition the Department of Ecology for modifications to some of the requirements.

Department of Ecology personnel, upon presentation of proper credentials, shall have access at reasonable times, to the project location, and to inspect at reasonable times, records of water use, wells, diversions, measuring devices and associated distribution systems for compliance with water law.

You have a right to appeal this decision. To appeal this you must:

- File your appeal with the Pollution Control Hearings Board within 30 days of the "date of receipt" of this document. Filing means actual receipt by the Board during regular office hours.
- Serve your appeal on the Department of Ecology within 30 days of the "date of receipt" of this document. Service may be accomplished by any of the procedures identified in WAC 371-08-305(10). "Date of receipt" is defined at RCW 43.21B.001(2).
